2

Voice over:
And The BiG GiG Fiber Network powers fast, reliable, gig-speed internet for South Whidbey Island.

Graphics on screen:
The Big GiG Fiber Network logo appears emitting waves.

3

Voice over:
It can be up to 100 times faster than traditional internet.

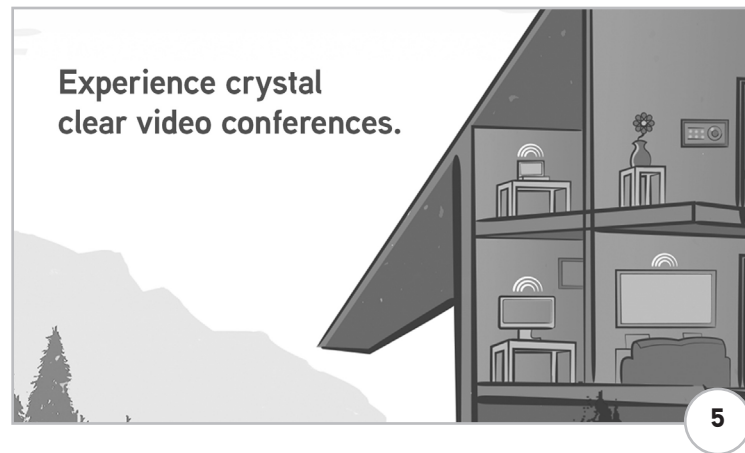

Graphics on screen:
Shot of hills/island in distance and close shot of a house. Back of house fades out and we see inside. We see several devices with wi-fi signal active above them.

4

Voice over:
Get a gigabit of fiber optic internet and light up every device in your whole home

Graphics on screen:
The camera is slowly pushing forward.

5

Voice over:
Experience crystal clear video conferences. And hyper-fast movie downloads.

Graphics on screen:
The camera stops at a close up shot of the back of the open house. We see animated wifi signals flashing flawlessly on multiple devices.
